

## **Vision**

CoHo strives to have a smoking free environment.

## **Needs/Requests**

We want to work toward meeting personal needs as well as needs of the community.

Integrity: We want to have a smoking free environment within the context of our agreements, policies, and guidelines.

Understanding: We want to acknowledge our neighbors' and their guests' and caregivers' needs.

Trust: We build respect, community, and connection by having a clear policy that all can understand and abide by.

Safety: We want to ensure that as a community we support the health of all here.

## **Vision and Values**

Diverse community: By allowing personal preferences to be expressed while respecting neighbors' wants and needs.

Safety and Trust: By having in place a policy that all can refer to, and maintaining an environment conducive to good health.

Balancing Community and Privacy: By assisting community involvement in deciding the effect of actions on community and privacy.

## **Facts**

We have an existing policy on a smoking free environment (20060305). This document is both a reformat and a revision of the existing policy.

## **Assumptions**

We assume as a community that we will uphold and follow this policy.

## **Policy**

There will be no outdoor smoking in or on any CoHo GCE or LCE areas. This includes the Common House and the parking lot. Individuals have freedom of choice within their own residence, but that right does not extend beyond their exterior doors.

## **Revision History**

This policy was created and initially approved March 5, 2006.

This policy was reviewed, reformatted, and approved by the community on April 21, 2013.
